Taittirīya Samhitā, 19, 21, 45, 53, 54, 55, 57-61, 64, 69, 70, 71, 78, 79, 80.
 Terminology, 419-421.
 Terms Technical, 16-26.
 Theorem, Geometrical, 49-51 ; Pythagorean, 198-199. Proof, 202-218.
 Thibaut G. F. W. (1848-1914), 21, 127, 144, 164, 165, 166, 167, 169, 170, 193, 204, 210, 211, 234, 235, 237, 243, 244, 246, 249, 269, 270, 271, 273, 274, 301, 335, 336, 339, 372, 381, 382, 383, 388, 394, 467, 470, 472.

Tiryāṇmānī, 18.

Transformation, Geometrical, 49, 158-181.

Trapezium, 173, 190, 224, 297, 298, 367. ; To construct an isosceles, 47 ; face, base and altitude are given. 47; 121-126. Similar and equal to a third part of another, 297, Similar and double its area, 299 ; n times the size of it, 300 ; Similar to a given one having a given altitude, 319 ; Isosceles having an area of 324 square padas, 190-191 ; Area of 185 ;

Trayodaśa ("thirteenth") [=1/13], 419.

Triangle, area of a , is half the square on the same base and equal altitude, 93 ; To construct a , equal to a square, 178 ; Division of a , into equal and similar parts, 91-92 ; Isosceles, to bisect, 93 ; Measurement of, 185 ; (See also Postulates, Rectangle, Right angled

Triangle, Scalene triangle and Square).

Tri-aṣṭama, ($3/8$), 420.

Tri-guṇa ($1/3$), 420.

Tri-karaṇī = $\sqrt{3}$, 207, 369.

Triśatikā, 32.

Ṭṛtīya-karaṇī, 207, 369.

U

Ubhayataḥ Prauga, 21, 44, 62, 180.

Ubhayī, 90.

Uparava, 69.

Uttara-vedi, 69.

V

Vādhula, 3.

Vājasaneyā Saṁhitā, 59, 69-70.

Vakrapakṣa Śyena-citi, 75-76, 211.

Vakrapakṣa vyastapuccha Śyena-citi, 44, 386 f.n.

Vārāha, 3, 4, 11, 27.

Value of,

π , — 31, 283-284, 288.

$\sqrt{2}$, —33, 34, 371-372, 396-398. (See also surds.)

$\sqrt{3}$. —379-381. 405

($1/\sqrt{3}$), — 31.

$\sqrt{5}$, - 399, 404

$\sqrt{29}$, 405.

$\sqrt{61}$, 405.

Vedāṅgas, 2

Vedārthadīpikā, 35.

Vedi, Configuration of, 17 ;
Enlargement of, 306-
309 ; *Line of Symmetry*,
17 ; Relative position,
60, 434-440 ; Time of
existence, 77.

Vedic altars, 41-45.

Vedic-Sacrifices, 39-45.

Veṅkateśvara Dīkṣita, 28.

Vieta. (c. 1580). 356

Vijñāyate, 53, 250.

Vijñāyate, 53, 250.

Viśeṣa and *Saviśeṣa*, 383-
396 ; (See also *Abhyanta-
ra-viśeṣa*, and बाह्य

विशेषे

hypotenuses turned
outwards, 385-387.

*Viṣṇubhakti-Kalpalatā-
prakāśa* (1597A.D.), 32.

Volume measurement,
192-196.

Viśeṣa and *Saviśeṣa*, 383-
396 ; (See also *Abhyanta-
ra-viśeṣa*, and बाह्य
विशेषे

hypotenuses turned
outwards, 385-387.

*Viṣṇubhakti-Kalpalatā-
prakāśa* (1597A.D.), 32.

Volume measurement,
192-196.
